6 Ways to make Fireworks!

Start with white Starb-ends over your background for a glow, then use lines bursting out of a center point.

Similar to the first method, but try using teardrops that radiate out from the center! Add a little red in the middle.

Use a dauber loaded with a TAG split cake, sponged over BAM stencil #1021, finished off with Wolfe white!

Using the tip of a loaded rake brush, stipple on dots that radiate and fall from the center point.

Make thick-to-thin lines coming out from the center, and add tiny star bursts on the ends. Don't forget the glitter!

Similar to the previous version, but with a burst of sparklers on the top and falling lines around the bottom!

New Happenings in the Shop!

We have a lot of new things going on with our store this summer so I wanted to take this opportunity to sum them up for you!

No More Kryolan!

I am sad to say that due to a huge new contract that Kryolan is expecting all vendors to sign, I am being forced to stop selling their products. Because of this, we will no longer be re-stocking things as they run out. If you have any favorite Kryolan products, get them while you still can!

New Mehron Additions!

This week we've added several new additions from the Mehron product line to the shop, including Prisma brushes, barrier spray, and AdGem adhesive!

New Business Starter Kit!

We have completely re-designed our new business starter kit. This new kit will give aspiring professionals the opportunity to try a full selection of Paradise paints, as well as get a taste of some fun additions like BAM stencils and one stroke cakes.
